

CHEICK KANTE

AI Creative Producer

ElevenLabs' ambition to define and scale AI-powered storytelling directly matches the work I already do independently. I combine hands-on multimodal production, model evaluation in real production conditions and creator audience growth with 6+ years of consulting experience in cross-functional collaboration, complex problem-solving and reliable delivery.

FRENCH NATIVE

ENGLISH Full professional proficiency

BAMBARA NATIVE

AI CREATIVE PRODUCTION

Independent AI Creative Producer & Workflow Designer, since Feb 25

- Built "StoryCodex", an **AI-native pipeline** from story and visual development to image/video generation, multilingual voice, editing and publishing.
- Created reusable prompt, style and reference systems to maintain characters, environments and visual **continuity across multi-shot productions**.
- Benchmarked **multiple AI models in real production conditions**, evaluating prompt adherence, reference consistency, motion quality, and failure modes.
- Produced **~20 original French/Bambara animated stories**; recent films run **10-16 minutes** and involve hundreds of generated and reviewed shots.
- Repurposed long-form films (YouTube) into social-first teasers and short-form series for TikTok.

ENTERPRISE CONSULTING

Senior Consultant - Wavestone : 02/2020 - present · Paris

- Coordinate architecture governance across **140+ architects** and approximately **10 committees per month**; redesigned validation and documentation workflows to improve clarity, traceability and review efficiency.
- Lead technical workshops** and cross-functional project activities, translating complex cloud, architecture into actionable decisions for enterprise stakeholders.
- Design AI-assisted workflows and automation for documentation, knowledge processing and delivery while mentoring junior consultants and coordinating project work.

EDUCATION

Engineer - ENSTA Paris, 2019
